

Fiber Splicing Workstation Leveling Kit

Tired of Your WorkStation Wobbling on Uneven Surfaces?

Say goodbye to...

shaky tables, makeshift shims, and constant readjustments.

Say Hello to...

U-TECK's new Workstation Leveling kit allows for the quick leveling of the worksurface on uneven ground, around ditch cuts, rights-of-way, and is a great feature for emergency restoration. Made from strong composite, the leveling kit features angled feet with grip pattern surface.
