

DIELECTRIC UMBRELLA

U-TECK's line of dielectrically safe fiberglass umbrellas provides a variety of options for protection from unknown electrical current as well as the elements.

Features:

- High-visibility, heavy duty, 7.5 ft wide, yellow umbrella with top air vents
- Fiberglass extension pole and skeleton for added safety

Includes:

- Adjustable tripod stand
- Three anchor stakes

Optional:

- Transparent 18-inch window to allow obstacles and hazards to be seen from below
- Carrying bags for additional storage
- Straight Pole
- Sturdy-Tilt Locking Hinge

Umbrella Carrying Bag

* Hinge higher to make the umbrella more sturdy and able to handle the weight of high winds or harsh weather

Adjustable Tripod Stand

Light enough to be used on mowers, tractors, etc.
